Trust Tower

What You Need

+ Blocks, plastic cups, or anything safely stackable
+ A soft or uneven surface (pillow, folded towel)
+ A solid, flat surface (table or floor)
+ Pencil or crayons

What to Do

1. Build your tower on the uneven surface first. Stack as high as you can.
2. Watch how easily it falls or tips over.
3. Now build the same tower on the solid base. Notice how much stronger and more stable it is.

Reflection

When we put all our trust in money, things, or even people, it's like building our life on a shaky foundation. Shaky foundations can hurt us and others. But when we trust God, it's like building on solid rock, He never changes and never fails. When we build our lives and decisions on a solid foundation, with God's wisdom, it will accomplish God's purposes in our lives and the lives of others.

In Matthew 7:24-25, after Jesus taught the people a lot of lessons, He told them this:
"Therefore everyone who hears these words of mine and puts them into practice is like a wise man who built his house on the rock. The rain came down, the streams rose, and the winds blew and beat against that house; yet it did not fall, because it had its foundation on the rock."
